

Click Cleaners

LC, SC, & MPO Ferrules

Product Description:

Click cleaners are an excellent solution for cleaning fiber optic connectors on jumpers and in adapters. A high percentage of network outages can be caused by a dirty connector, making it essential to clean every connector. Our click cleaners use a mechanical push action to advance an optical grade cleaning tape while the tip is rotated to ensure the fiber end-face is effectively and gently cleaned. These are a great staple for field technicians for their ease of use, durability, effectiveness, and compact size.

Features:

- Single-action cleaning in a small ergonomic design
- Variety of sizes and types for different connector styles
- Cleans connectors in both jumpers and bulkhead adapters
- Low cost per clean

Applications:

- Removing oil, dust, and dirt without damaging delicate fiber end-faces
- Clean connectors in tight spaces
- Field or laboratory use
